My very dear Friend

We were very glad to hear of thy safe arrival in England & when Eliza & I arrived in London on the 17th of last month to attend our own Yearly Meeting, we went to the A.S. Office 27 New Broad St to enquire thy address, & were greatly disappointed to find that thou had left for France, and a fortnight later were also told that thou had not yet returned. — We feel anxious not to miss seeing thee in our own house in Edinburgh — and as the papers inform us that thou art to be entertained tomorrow in London I send this to meet thee there & to enquire what are thy plans as to being

James Wigham,

in Scotland? We have been nearly
6 weeks from home visiting re
latians in various places since
leaving London — Next week we
intend being at the Genral meeting
at Ackworth School and afterwards
have visits northward of that,
which will occupy the most of
next month — One of these visits
is to our dear Cousin Sarah Wigham
formerly of 10 Salisbury Road, the
last house thou was in at Ed
inburgh, where we went with thee
to spend a little time till the coach
would pass — in which thou and
George Thompson & his wife de
parted together. S. W. removed to
Carlisle soon after the death of
her husband — We miss her society

much and wish to spend a little time with her on our way home and at the houses of other three of our friends.— When we know what they plans are likely to be we might vary ours in some respects.— Therefore dear friend please write so as to meet us at "New Town House Carlisle" on the 6th of next month, which will be this day week.—

Eliza and I are here together and live together in the same house 5 South Gray St. where we should be most happy to welcome thee & thine— & hope you will give us as much of your valuable time as you can spare.—

This time of year is not so

favorable for finding people at
home in our large Cities as near
or winter would be, but probably
than hast to make the most of the
present time. We shall read with
much interest the account or report
of tomorrows breakfast in London.

Eliza unites in very dear
love to thee & thine with

thy affectionate friend

Jane Wigham
